The governing body has overall responsibility for ensuring that the school complies with its obligations under the Data Protection Act 1998.

Day-to-day responsibilities rest with the Headteacher, or the Deputy Head in the Headteacher's absence. The Headteacher will ensure that all staff are aware of their data protection obligations and oversee any queries related to the storing or processing of personal data.

Staff are responsible for ensuring that they collect and store any personal data in accordance with this policy. Staff must also inform the school of any changes to their personal data, such as a change of address.

7.2 Staff

- Enable individuals to be paid
- Facilitate safe recruitment

Any staff member wishing to see a copy of information about them that the school holds should contact either the Headteacher, Deputy Headteacher.

8. Subject Access Requests

Under the Data Protection Act 1998, pupils have a right to request access to information the school holds about them. This is known as a subject access request.

Subject access requests must be submitted in writing, either by letter, email or fax. Requests should include:

- The pupil's name
- A correspondence address
- A contact number and email address
- Details about the information requested

The school will not reveal the following information in response to subject access requests:

- Information that might cause serious harm to the physical or mental health of the pupil or another individual
- Information that would reveal that the child is at risk of abuse, where disclosure of that information would not be in the child's best interests
- Information contained in adoption and parental order records
- Certain information given to a court in proceedings concerning the child

Subject access requests for all or part of the pupil's educational record will be provided within 15 school days. The table below summarises the charges that apply.

If a subject access request does not relate to the educational record, we will respond within 40 calendar days. The maximum charge that will apply is £10.00.

9. Parental Requests to see their Child’s Educational Record

Parents have the right of access to their child’s educational record, free of charge, within 15 school days of a request.

Personal data about a child belongs to that child, and not the child's parents. This is the case even where a child is too young to understand the implications of subject access rights.

For a parent to make a subject access request, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

The Information Commissioner’s Office, the organisation that upholds information rights, generally regards children aged 12 and above as mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents of pupils at our school may be granted without the express permission of the pupil.

10. Storage of Records

- Paper-based records and portable electronic devices, such as laptops and hard drives, that contain personal information are kept under lock and key when not in use

- Papers containing confidential personal information should not be left on office and classroom desks, on staffroom tables or pinned to noticeboards where there is general access
- Where sensitive personal information needs to be taken off site in paper form, staff must sign it in and out from the school office. This does not include academic scores / assessments.
- Where personal information needs to be taken off site in electronic form, staff must ensure this is only stored on encrypted USB media
- Log-in usernames and passwords that together are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices that could be used to access personal data.
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- On-site backups are stored in a locked safe and all off-site backups are encrypted before leaving school site
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures for school-owned equipment

11. Disposal of Records

Personal information that is no longer needed, or has become inaccurate or out of date, is disposed of securely.

For example, we will shred or incinerate paper-based records, and override electronic files. We may also use an outside company to safely dispose of electronic records.

12. Training

Our staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation or the school's processes make it necessary.

13. The General Data Protection Regulation

We acknowledge the General Data Protection Regulation that came into force in May 2018.

14. Monitoring Arrangements

The Headteacher is responsible for monitoring and reviewing this policy.

The Headteacher checks that the school complies with this policy by, among other things, reviewing school records. This task is delegated to office administration staff on an annual basis.

This document will be reviewed **every 2 years**.

Every review will be shared with and ratified by, the governing body.

15. Links with Other Policies
