Dear Parents,

I hope you are all keeping well and managing to juggle everything during these difficult times. Please remember to look after yourselves and do not feel under pressure to complete all of the home learning . As you know we have been very busy setting up TEAMS for the children and they have all been allocated to their classes now. The weekly work will be shared here in your child's class under files. I hope this proves to be a more efficient way of having work together. TEAMS allows us to organise class group meetings which the children have been invited to by their class teacher in the calendar.

The image above shows the homepage where the class teacher can post messages to share with the class. This is a public page for the children to share their work . In the tab at the top of the page, you will see files and this is where the work is stored for each week. TEAMS can be accessed on a web browser or you can download the APP—please use your child's sign in details to access their account. I am attaching a link which enables you to access TEAMS through an Amazon fire Tablet or Fire HD 8, if you wanted to use this device.
